

To our valued Customers and Partners,

Go!Foton is proud to announce that we are now able to supply certified BEAD compliant options from our award-winning portfolio of innovative products and solutions. From our headquarters in Somerset, NJ, our team of highly expert innovators is ready to support your business demands as we embark together on this epic journey to finally make **Internet for All** a reality throughout our great nation.

Recognizing the strategic imperative of ubiquitous access to broadband services, the federal government has allocated \$42B as part of the Broadband Equity, Access, and Deployment (BEAD) Program. Administered by the National Telecommunications and Information Administration (NTIA) within the Department of Commerce (DOC), BEAD aims to bring reliable, affordable broadband to all Americans by funding infrastructure deployment, mapping, and adoption initiatives, allowing states to competitively award grants to subgrantees to execute their broadband plans based on their specific needs. All BEAD infrastructure projects are required to be constructed using products which meet the Build America, Buy America (BABA) domestic content requirement, with only limited exceptions as granted by the NTIA's Limited Applicability Waiver. The corollary effects of this requirement will have profound benefits on the economic growth and vitality of manufacturing jobs within the USA and Go!Foton is proud to be a leading contributor in this area.

In accordance with the NTIA established process, subject to fine or imprisonment – under the Program Fraud Civil Remedies Act (31 U.S.C. § 3801 et seq.) and the False Claims Amendments Act of 1986 and the False Statements Accountability Act of 1996 (18 U.S.C. §§ 287 and 1001, respectively) Go!Foton hereby certifies that the listed products are compliant with the BABA waiver for the BEAD Program as mandated by the Infrastructure Investment and Jobs Act (IIJA) Pub. L. 117-58, 135 Stat. 429, 70901-70927.

Our dedication to compliance with BEAD and the Build America, Buy America Act is our commitment to the success of your project, and it reinforces our shared values of US economic development and sustainability.

Thank you for your continued trust and partnership with Go!Foton. If you have any questions or need further information about Go!Foton, our BABA compliant solutions, or if you have any other business needs, please feel free to contact your sales manager or our customer support team at 1-732-469-9650.

Sincerely,

Simin Cai, Ph.D.  
President & CEO  
Go!Foton Corporation
